Sketches

Floor plan

This home was built from scratch after doing researches and many scouting in downtown areas in Cairo! We had to look at it with Rasha's POV how she would take one of those antique apartments in old luxury city and turn it to a modern suitable place with keeping the luxurious

So we had to look for a real apartment to link the doors together, we had to look for a construction that matches the general mood

That's why the outdoor of the apt and bldg was taken in 2 different bldgs

Shooting 6 episodes mostly in one place was a huge challenge for us to make each frame and each scene not boring

It was built in
Studio Amwaj plateau 2
In area 28m*40m
It was built in three weeks

Entrance

Art direction main concept:

- old construction with a modern renovation/high ceiling -using monochromatic colors
- materials must be soft and smooth
 - using a wild side in props
 - Aesthetic Drawings
 - Hidden sexual aesthetics
